MEMORANDUM FOR: Director of Security

FROM : Clifford D. May, Jr.  
Director of Data Processing

25X1

SUBJECT : Computerized Database - Areas Approved for  
Storage of Collateral and SCI Material [redacted]

REFERENCES : a. Memo to D/ODP fm D/OS dtd 27 Jan. 77,  
same subject.  
b. Memo to D/OS fm D/ODP dtd 25 Feb. 77,  
same subject.

25X1 1. [redacted] My previous memorandum (reference b.) stated that June 1978 was the earliest date that ODP would have personnel available to work on your request. However, an analyst from B Division of Applications is now available to begin work on this project. [redacted] Chief, 25X1A Division, has contacted [redacted] of the Special 25X1A Security Center to begin a preliminary study of your requirements.

25X1 2. [redacted] After analyzing the requirements of the proposed Storage Facilities system we have concluded that we could readily implement it using ODP's central computers. However, a significant resource commitment is required to collect the necessary data and enter it into the data base. We have prepared an analysis of the data collection and preparation tasks and recommended procedures to obtain the data necessary for the system. These are contained in the attached study.

25X1 3. [redacted] Because there is a significant resource commitment required of Security, ODP, and other Agency components, 25X1A I recommend that [redacted] coordinate the review of this study with those people identified in paragraph 1. of the attachment. Before you and I approve ODP's continuing with the system development, we should be certain that we agree with the findings and recommendations of the attached study. If you concur with the study's recommendations and want ODP to continue work on the schedule provided in the study, please sign below.
